Subject: Introducing myself as new EPA Hunters Pt (San Francisco) Remedial Project Manager
Attachments: HPS Inspection Report Attachment 5-7-2014 detailed re contractor concerns.pdf; HPS Inspection Report Cover Ltr 5-7-2014 re contractor concerns.pdf

Dear Richard,

I have heard about you from John Chesnutt, who gave me your contact information. I wanted to introduce myself as the new Hunters Point Remedial Project Manager, replacing Craig Cooper, who has happily moved to Argentina last week. I look forward to working with you.

Can I ask for your help? I am getting up to speed on the issue of the anomalous soil samples at Hunters Point. I have heard that NRC has been tracking this issue. I was wondering if you have any final evaluation of the resolution of the concerns raised. I appreciate the chance to hear your perspective.

In addition, I have received questions from members of the public about the concern that Tetra Tech inappropriately transported radiation contaminated soils to a landfill in Pittsburgh. John Chesnutt gave me the attached cover letter and report. He believed that these directly address this concern. If so, I see that it is marked as "public" and "non-sensitive." Would it be appropriate to share this with the members of the public who have called me?

Thank you very much.

- Lily
